

## CONNECTICUT UNDERAGE DRINKING LAWS

Drinking by college students has serious consequences both to their own health and safety and to their larger college communities. According to the [National Institute on Alcohol Abuse and Alcoholism \(NIAAA\)](#), drinking by college students aged 18 to 24 contributes to an estimated 1,825 student deaths, 599,000 student injuries, and 97,000 cases of sexual assault or date rape each year.

As students and their parents consider the health and safety consequences of student drinking, they should also be aware of Connecticut laws concerning underage drinking and social hosting. Violations of alcohol laws may lead to the fines and penalties noted below, as well as expose students to additional legal liability, particularly if they act as social hosts.

Students who give parties, whether in on-campus houses or apartments or in their dormitory rooms, for example, are considered social hosts and they should take care to review and observe the relevant laws. A violation of these laws may have particularly serious consequences to the host if a guest is underage and becomes sick or is hurt. [2012 bill](#)
